

K M EMON AHMED

Software Engineer | Backend & AI Systems

kmemon.ah@gmail.com | +880 1781 813727 | linkedin.com/in/kmemonahmed

SUMMARY

Software Engineer with 5 years of experience building Python/Django backend systems and REST APIs for production environments. Experienced in ML integration, AWS cloud deployment, and LLM/agentic AI evaluation.

KEY SKILLS

Backend Development: Python, Django, DRF, PostgreSQL, MySQL, MongoDB, Celery, Redis, MQTT, RabbitMQ, Selenium.

Frontend Development: JavaScript, jQuery, HTML, CSS, ElectronJS.

DevOps and Deployment: Git, AWS, Docker, CI/CD.

AI & LLM Systems: LLM Evaluation, AI Model API Integration, SWE Benchmarking.

WORK EXPERIENCE

Python Developer | Turing | Remote | Contract

Jun 2025 – Present

- Build and maintain Python/Django internal platforms supporting agentic AI evaluation workflows and task lifecycle management.
- Review and validate structured reasoning and tool-use tasks, ensuring compliance with agentic task design and verification standards.
- Support end-to-end task delivery pipelines from creation through evaluation and client submission on AWS infrastructure.

AI Trainer – LLM Benchmarking | Turing | Remote | Contract

Jul 2024 – May 2025

- Evaluated SWE-bench style tasks for a leading frontier AI research organization, assessing model-generated code outputs against real-world issue requirements.
- Validated solutions through end-to-end and visual before/after testing, identifying failure points, incorrect logic, and missing requirements.

Software Engineer | TiCON System Ltd. | On-site | Full-time

Jun 2021 – Sep 2025

- Designed and shipped REST APIs for 20+ applications using Python, Django, and DRF, with frontend contributions in JavaScript and jQuery, while serving clients across Bangladesh and South Korea.
- Integrated ML models — including face recognition, human detection, and an AI chatbot — into 10+ production applications.
- Developed sensor communication modules for a Korean Army-affiliated project; represented TiCON on a client delivery visit to South Korea.
- Architected and deployed cloud infrastructure on AWS (EC2, RDS, S3) and built CI/CD pipelines.
- Mentored junior engineers and led backend architecture decisions across cross-functional teams of 3–5.

EDUCATION

B.Sc. in Computer Science and Engineering

Jan 2017 – Jan 2021

Daffodil International University

CERTIFICATIONS

AWS Certified Solutions Architect – Associate | Amazon Web Services | May 2024
